RE-TAKE

Written OR Performance - \$300

ASTM C94 requires anyone testing concrete in the field to be certified through an ACI program.

NOTE: Please dress in casual wear - boots, jeans, sweatshirts as the field testing is hands-on. Gloves and safety glasses are recommended. YOU MUST BRING A CALCULATOR.

An examination will be given and requires each participant to carry out the proper testing procedure for slump, air content, yield temperature measurement, rolla meter, and cylinder. The course involves a morning classroom session and instruction on basic concrete materials and testing procedures. The afternoon field test session includes demonstrations and practice in proper testing procedure.

Previous experience and careful review of the training materials is REQUIRED

To maintain certified status with ACI, you must renew every 5 (five) years.

CLASS SCHEDULE:

7:30AM Class Review

11:00AM Written Exam

12:00PM Lunch

1:00PM Field Testing
